CLOSING REMARKS

END OF CEREMONY

DECLARATIONS

The RCSI Graduates Declaration is a commitment to the highest standards of professionalism and ethical practice in your career, as taught during your studies here at RCSI. It was developed by consensus among students, based on the traditions of the Hippocratic Oath. It is a common oath read by graduands of all of our undergraduate health professional programmes and all postgraduate practitioner and research degrees. We ask that graduands make the declaration publically in the presence of your faculty, fellow graduands, family and friends.

Graduates Declaration

- » I will practice my profession with conscience and dignity.
- » The health of my patient will be my first concern.
- » I will maintain the utmost respect for human life.
- » I will remember that there is art to my profession, as well as science, and that warmth, empathy, and understanding may outweigh treatment alone.
- » I will respect the confidential information that is entrusted in me, even after a patient has died.
- » I will not permit considerations of age, disease or disability, creed, ethnic origin, gender, nationality, political affiliation, race, sexual orientation, social standing or any other factor to intervene between my duty and my patient.
- » I will not use my professional knowledge to violate human rights and civil liberties, even under threat.
- » I will respect the hard-won scientific gains of those in whose steps I walk, and gladly share such knowledge with those that follow.
- » I will abide by the code of conduct of my profession and I will promote high standards of practice, life-long education and research in the interest of human health.
- » I make these promises solemnly, freely and upon my honour.

Postgraduate Declaration

- » I acknowledge my position at the forefront of my field of learning and scholarship.
- » I understand my responsibility to use this learning to contribute and lead in my community.
- » I will maintain the utmost respect for human life.
- » I will respect the confidential information that is entrusted in me.
- » I will not permit considerations of age, disease or disability, creed, ethnic origin, gender, nationality, political affiliation, race, sexual orientation, social standing or any other factor to interfere with my duties in my chosen profession.
- » I will not use my knowledge to violate human rights and civil liberties, even under threat.
- » I will respect the hard-won scientific gains of those in whose steps I walk, and gladly share such knowledge with those that follow.
- » I will promote high standards of practice, life-long education and research in the interest of human health.
- » I make these promises solemnly, freely and upon my honour.

ROYAL COLLEGE OF SURGEONS IN IRELAND

Our Mission: to Educate, Nurture and Discover for the benefit of Human Health

Our ultimate purpose is to work in service of patients. Our College was founded by Royal Charter on 11th February 1784, to set and support professional standards for surgical training and practice in Ireland. This noble surgical heritage continues to shape our approach to education, research and service. At its very essence, surgery is the most exacting of disciplines, demanding professionalism, precision, skill and expertise at the highest level.

Today we are an innovative, world leading international health sciences education and research institution with undergraduate and postgraduate schools and faculties across the health sciences spectrum. We are home to numerous healthcare institutes as well as leading research centres driving pioneering breakthroughs in human health. Located in the heart of Dublin, with four international campuses and a student community of over sixty nationalities, we have an international perspective on how we train tomorrow's clinical professionals today.

A deep professional responsibility to enhance human health through endeavour, innovation and collaboration in education, research and service informs all that we do. We welcome students and researchers into programmes of academic excellence and a lifelong community of colleagues, that is clinically led, nurturing and supportive to enable them to realise their potential to serve our global patient community.

We are an independent, not for profit body and remain committed to institutional independence, service, academic freedom, diversity and humanitarian concern. Our independence enables us to chart our own course in service of excellence in human health. Placing the patient at the centre of all that we do, our values of Respect, Collaboration, Scholarship and Innovation continue to unite and direct our purpose.

THE ROYAL COLLEGE OF SURGEONS IN IRELAND – MEDICAL UNIVERSITY OF BAHRAIN

Having first opened our doors to 28 medicine students in 2004, under license from the Government of the Kingdom of Bahrain, a vibrant school of Nursing and Midwifery admitted its first cohort of students in October 2006 and RCSI Bahrain now has a student population of almost 1,300 from 40 countries around the world.

In February 2009, a purpose built university campus adjacent to the King Hamad University Hospital, was opened by the then President of Ireland Mary McAleese and the late His Royal Highness Prince Khalifa bin Salman Al Khalifa.

The role of the university is to provide healthcare education and training to world standards in Bahrain, drawing students from Bahrain, the other GCC countries and beyond.

THE ROYAL COLLEGE OF PHYSICIANS OF IRELAND (RCPI)

Beginning in 1564 as a Fraternity of Physicians, in 1667 the College was granted a Royal Charter by Charles II. The roll of the College includes the names of such famous Irish medical men as John Stearne, Sir Patrick Dun, John Cheyne, Robert Graves, William Stokes and Sir Dominic Corrigan.

Associated with RCSI in the conjoint Board, the College plays an active part in education and examination of undergraduate medical students. In its postgraduate professional role it is responsible for teaching, examining and training in the medical specialities and associated disciplines.

THE NATIONAL UNIVERSITY OF IRELAND (NUI)

NUI is a federal university comprising the largest element of the Irish university system at the present time. The continuing mission for NUI in modern Ireland is to provide a supportive framework for its confederate institutions. NUI currently comprises four Constituent Universities and five recognised Colleges. The overall Governing Authority of the University is the NUI Senate which is headed by the Chancellor.

WISHING THE
CLASS OF 2021
EVERY SUCCESS FOR
THE FUTURE

President: Professor Sameer Ootom

Building on the heritage of the Royal College of Surgeons in Ireland which was founded in 1784, we will enhance health in Bahrain, the other GCC countries and beyond through endeavour, innovation and collaboration in education, research and service.
