PRESIDENT'S WELCOME TO CHARTER MEETING

On the occasion of the annual commemoration of Charter Day it is my great pleasure to welcome all those attending Charter 2023 **Shaping The Future** this week at RCSI. We are delighted to be able to meet in person.

RCSI has evolved considerably since its foundation in 1784, set up by Royal Charter, to oversee standards in surgery and regulate surgical training. Today it is an internationally recognised independent, not for profit, university of health sciences institution and the professional training body for surgery in Ireland.

Over the years our Annual Charter Day Meeting has grown to reflect our ever-expanding role and reach as a professional training body. This week's meeting is focused on surgical care and planning for the future. We meet during a time of immense pressure in the Irish health services. These pressures are impacting both on patients and on the health care professionals who, as we know, remain dedicated to their welfare. Our gathering this week gives us the opportunity to reflect on these challenges and provide support to each other.

This year's Charter events begin on Saturday 28 January, with the **Annual Meeting of the Irish Surgical Training Group (ISTG)**. As part of this session, the **Bosco O'Mahony Lecture** will be delivered by **Professor Michael Kerin**, entitled, *Irish Surgery – a discipline in evolution: implications for training and practice*.

The Charter Day Meeting also serves as an opportunity to our **Clinical Programs in Surgery** and the **National Office of Clinical Audit**, or NOCA, to showcase their activities. NOCA is a publically funded independent institution, based in, and supported by the RCSI. This meeting will highlight their key achievements and their future objectives to develop national clinical audit across our healthcare system.

On Tuesday evening we host the **17th Annual Intercollegiate Case Presentations** which is an annual event delivered by the surgical societies of Irish medical schools and I wish the best of luck to all presenters competing for the David Bouchier-Hayes Medal this year.

On Wednesday the **Annual Health Service Quality Improvement and Innovations Conference** will take place, hosted by **RCSI National Clinical Programmes**. This will highlight our invited speaker **Mary Dixon Woods**, Director of THIS Institute (The Healthcare Improvement Studies Institute) and the Foundation Professor of The Healthcare Improvement Studies in the Department of Public Health and Primary Care at the University of Cambridge. Wednesday afternoon will see parallel sessions from our RCSI Faculties. On Wednesday evening we look forward to the **33rd Annual VideoSurgery Meeting**.

On Thursday morning we have a plenary Symposium entitled: **'The Future of Surgery and Technology for Surgeons and the Patient'**. This is followed by parallel sessions on Breast, Colorectal, H&N, HPB, Otolaryngology, Urology and Upper GI surgery.

We look forward to the Johnson & Johnson Lecture on Thursday afternoon entitled **'Allies, Advocates and Change Agents'** by our guest speaker **Dr John G. Meara** who joins us from Boston Children's Hospital where he is Plastic Surgeon-in-Chief. He is also Professor of Surgery at Harvard Medical School. Later in the week, Dr Meara will receive an Honorary Fellowship from the RCSI. This will be followed by the **45th Millin Lecture** by **Prof Shirley Potter**, Consultant Plastic and Reconstructive Surgeon, Mater Misericordiae University Hospital, Dublin and Associate Clinical Professor, School of Medicine, University College Dublin.

Tuesday 31

Wednesday 1

Thursday 2

Friday 3

Thursday evening sees Honorary Fellowship conferred on **Dr Vivian McAlister**, Professor Emeritus, University of Western Ontario and Adjunct Professor, Department of History, University of Western Ontario and **Dr. Ajit K Sachdeva**, Director, Division of Education, American College of Surgeons and Adjunct Professor of Surgery, Feinberg School of Medicine at Northwestern University, Chicago.

Friday has a busy schedule with several highlights to look forward to. In the morning we have the **30th Carmichael Lecture 'What Good Looks Like – A Patient Perspective'** with guest speaker **Orla Tinsley**, journalist, campaigner, and multimedia artist.

This year we commemorate the 250th anniversary of the birth of Abraham Colles, RCSI Professor of Surgery in the early 19th century, who described the eponymous Colles fracture, decades before the discovery of x-rays. This year's **98th Abraham Colles Lecture** will be delivered by **Dr Luc Morris**, Associate Director, Immunogenomics and Precision Oncology Platform, Memorial Sloan Kettering Cancer Center.

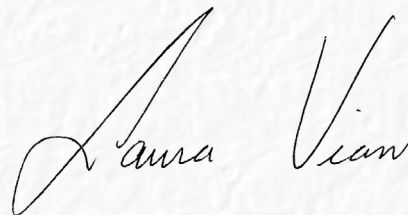

Across five Symposia on Friday we will have the opportunity to reflect on the key challenges and opportunities in surgical care; from the future of surgical training to future perspective on clinical audit to the configuration and staffing of safe surgical services.

And on Friday evening we have the **Annual Charter Dinner** which this year will include Honorary Fellowship conferred upon **Professor Maria B Majella Doyle**, Professor of Surgery, Division of General Surgery, Sections of Transplant Surgery and Pancreatic, Hepatobiliary and Gastrointestinal Surgery, Washington University School of Medicine and **Professor Richard Irving**, Consultant in

Otology, Neurotology and Skull Base Surgery, University Hospital Birmingham NHS Trust, Queen Elizabeth Hospital and Birmingham Children's Hospital, UK and **Dr John G Meara**, Plastic Surgeon-in-Chief, Boston Children's Hospital; Professor of Surgery, Harvard Medical School; Honorary Professorial Fellow, University of Melbourne.

I encourage you all to partake in as many activities as you can during Charter Week. This is an ideal time to re-connect with colleagues you may not have seen in a while and to be inclusive of new colleagues. It is only through supportive and collaborative frameworks that we can truly develop the future of surgery.

I wish to acknowledge the organising committee which includes the teams from the Conference and Events Department, the Communications Department, the Department of Surgical Affairs, and team members from the Office of Development, Alumni Relations and Fellows and Members. I thank all the support services staff in RCSI for their commitment to ensuring the smooth running of the Charter Day Meetings and I thank our Speakers and Chairs for their contribution. I look forward to meeting you all during the week.

Professor Laura Viani
President RCSI

Friday 3

George the Third

THE RCSI ROYAL CHARTER

In 1765 Sylvester O'Halloran, a surgeon from Limerick, had proposed a College of Surgeons in Ireland along the lines of the College de St. Cosme in Paris, which had been regulating French surgery since its creation by Royal Charter by Louis IX in 1255. O'Halloran called for a college of surgery to be founded in Dublin to train, educate and examine persons in the art of surgery. This led to a group of Dublin surgeons joining together and forming the Dublin Society of Surgeons in 1780. The main goals of the society were to separate surgeons from the Barber Surgeons Guild and provide surgical training, education and regulation in Ireland. They lobbied for a Royal Charter in 1781 and presented the Lord Lieutenant with their petition. The Lord Lieutenant presented the petition to King George III who saw it fit to grant a Royal Charter on 11 February 1784 establishing the Royal College of Surgeons in Ireland. The first President was Samuel Croker-King (1728-1817) and the first Professor of Surgery was William Dease (1752-1798).

RCSI CHARTER MEETING PROGRAMME KINDLY SPONSORED BY...

RCSI would like to thank our industry sponsors who are supporting Charter Meeting 2023. We encourage all delegates to visit the Exhibition Hall throughout Charter Meeting to connect with the sponsors' teams, find out more about their products and services to support you as clinicians and healthcare professionals. Opening hours for the Exhibition Hall are listed in the programme at a glance.

SATURDAY, 28 JANUARY 2023

2023 BOSCO O'MAHONY LECTURER

**Professor Michael Kerin**

Michael Kerin is Chair of Surgery at the National University of Ireland, Galway and Director of the Cancer Managed Clinical Academic Network (MCAN) for Saolta University Health Care Group. As Consultant Surgeon he has a special interest in breast and endocrine cancer. He is Research Director of the National Breast Cancer Research Institute, Principal Investigator with the SFI funded Precision Oncology Ireland, the All Island Cancer Research Institute (AICRI) and co-investigator of numerous other collaborative cancer research initiatives. Professor Kerin's research interests include molecular profiling in cancer, cancer risk prediction and innovative methods for breast cancer diagnosis and management.

Desmond
Auditorium,
26 York Street

JOHN BOSCO O'MAHONY (1948 – 2008)

Mr John Bosco O'Mahony FRCSI MRCP (UK) was one of the longest serving members of the Council of RCSI, being elected by his peers for almost twenty years consecutively. His untimely death on the 29th July 2008 left a void for the College, where he served on Council since 1989, and for the people of Wexford, where he was Consultant Surgeon since July 1984 in Wexford General Hospital. Bosco was a man of exceptionally high intelligence as proved by his many personal and academic achievements. He was Head-boy and Gold medalist at Rockwell College and won a scholarship to study medicine in University College Dublin, graduating in 1972. He completed his internship at St Vincent's University Hospital and was awarded his MRCP (UK) before concentrating on his career in surgery. His post graduate training took him to St Thomas's Hospital in London and subsequently to Brigham and Women's Hospital and Harvard University in Boston USA, where he completed his research training. His greatest legacy will be his human touch. He understood people and their needs and worked extremely hard over the years in his profession. He was a great teacher and mentor of his junior colleagues and developed many long standing relationships with his trainees. He was awarded the Silver Scalpel in 2007 by the Higher Surgical Trainees in recognition of his talents.

RCSI COLLES TRAVELLING FELLOWSHIP IN SURGERY

The RCSI Colles Travelling Fellowship in Surgery is offered by the Royal College of Surgeons in Ireland to promote the acquisition of additional surgical skills and knowledge that will contribute to advancement of surgical science and practice in Ireland.

The 2023 recipient is **Ms Jessie Elliot**. The Fellowship will assist towards her Clinical and Research Fellowship in European Minimally Invasive Oesophagectomy Fellowship in the Department of Surgery, University Medical Centre Utrecht, Netherlands.

RCSI SURGICAL TRAVEL GRANT

- Awarded to **Mr Thomas Aherne** for his Fellowship in Vascular Trauma and Vascular Oncological Surgery, in Department of Vascular and Endovascular Surgery, University of Toronto Hospital Group, Toronto, Canada.

- Awarded to **Mr Andrew Jerome Hughes** for his Fellowship in Hospital for Special Surgery Complex Joint Reconstruction Centre Clinical Fellowship at the Complex Joint Reconstruction Centre, Hospital for Special Surgery, New York, USA.

- Awarded to **Ms Brenda Murphy** for her International Fellowship in Colon and Rectal Surgery at the Mayo Clinic, Rochester, Minnesota, USA.

- Awarded to **Mr Paul Sexton** for his Fellowship in Head and Neck Oncology and Microvascular Reconstruction at Hull University Teaching Hospitals.

- Awarded to **Mr Ciaran McDonald** for his Fellowship in Upper Extremity and Trauma at Sunnybrook Hospital, Toronto, Canada.

- Awarded to **Dr Evelyn Murphy** for her Fellowship in Minimally Invasive Surgery and Orthopaedic Foot and Ankle Fellowship in Australia.

- Awarded to **Mr Matthew Lee** for his Fellowship in Tumour and Complex Primary and Revision Arthroplasty at Royal Prince Alfred Hospital, Sydney, Australia.

RCSI PROGRESS WOMEN IN SURGERY FELLOWSHIP SUPPORTED BY OLYMPUS MEDICAL

The College has been at the forefront in developing transparent selection future surgeons. Evidence shows that gender diversity within organisations results in better decision making. In 2017 RCSI published a comprehensive report PROGRESS: Promoting Gender Equality in Surgery, which made recommendations to ensure that Surgery as a profession is an attractive and practical career for both men and women. The RCSI PROGRESS Women in Surgery (WiS) Fellowship, funded by Olympus Medical through an educational grant, is a prestigious bursary awarded to promote female participation in surgical training at fellowship level.

The 2023 WiS is awarded to **Dr Evelyn Murphy**, together with the RCSI PROGRESS Fellowship Medal. The funding will assist towards the cost of her Fellowship, in Minimally Invasive Surgery and Orthopaedic Foot and Ankle Fellowship, Australia.

Tuesday 31

Wednesday 1

Thursday 2

Friday 3

THE BRIAN LANE MEDAL 2022

The winner of the prestigious Brian Lane Medal 2022 is **Ms Phoebe Lyons**. Towards the end of year one of Core Surgical Training each May, the 80 first year trainees complete an operative surgical skills assessment (OSCE) and the highest scoring trainee is awarded the 'Brian Lane' Medal in honour of Brian E. Lane FRCSI, FRCSEd, FRCSEng, FACS, Surgeon Prosector and a former Consultant General and Gastro-intestinal Surgeon at Beaumont and Connolly Hospitals.

PROFESSOR W.A.L. MACGOWAN MEDAL 2022

This is an award to recognise the highest performing candidate in the Intercollegiate Specialty examination across all specialties from the RCSI National Training Programmes. The 2022 recipient is **Ms Jessie Elliot** from the May 2022 sitting of the FRCS part 2 in General Surgery.

GERALD O'SULLIVAN MEDAL

The Gerald O'Sullivan medal is awarded every year to the Fellow who graduates top of the class at the annual COSECSA (College of Surgeons of East, Central and Southern Africa) exams. The medal is named in honour of the former President of RCSI, Professor Gerald (Gerry) O'Sullivan, who along with Professor Krikor Erzingatsian, set up the partnership between RCSI and COSECSA in 2007. This partnership aims to help train and retain surgeons in sub-Saharan Africa, and make better surgery accessible to more patients. In this region, the ratio of surgeons to population is 1.8:100,000 thus far below the 20:100,000 ratio recommended by the Lancet Commission. This partnership is funded by Irish Aid, Department of Foreign affairs, and is coordinated by RCSI. To date, COSECSA has graduated 778 surgeons, over 90% of whom are practicing in Africa. The medal has been awarded every year since 2012. Previous winners have been from Kenya and Zimbabwe. The medal winner for 2021 is **Dr Tasimbanashe Masamha**, and the medal winner for 2022 is **Dr Natalie Umugwaneza**.

16.00 - 16.45	Break Move to the College Hall	College Hall
HONORARY FELLOWSHIP CONFERRING & 45th MILLIN LECTURE		
16.45 – 18.00	HONORARY FELLOWSHIP CONFERRING UPON	
	Dr Vivian McAlister Professor Emeritus, University of Western Ontario and Adjunct Professor, Department of History, University of Western Ontario.	
	Dr Ajit K. Sachdeva, MD, FACS, FRCSC, FSACME, MAMSE Director, Division of Education, American College of Surgeons Adjunct Professor of Surgery, Feinberg School of Medicine, Northwestern University	
	45th MILLIN LECTURE MALIGNANT MELANOMA — AN UNLIKELY POSTER CHILD FOR PERSONALISED CANCER TREATMENT	
	Delivered by Professor Shirley Potter MB, BCh, BAO, BSc (Anat), FRCS (Plast), PhD Consultant Plastic and Reconstructive Surgeon Mater Misericordiae University Hospital, Dublin Associate Clinical Professor School of Medicine, University College Dublin	
	Introduction and Chair: Professor Laura Viani, President RCSI	
	<p>Shirley Potter graduated from NUI, Galway with both a medical degree and an intercalated BSc in Anatomy. Following basic surgical training, she completed a PhD in tumour biology at NUI, Galway and was awarded the HRB Clinician Scientist Fellowship. Subsequently she completed her specialist surgical training in Plastic and Reconstructive Surgery in Ireland and then moved to Australia for fellowship training, being awarded the Rowan Nicks UK and Ireland Fellowship from the Royal Australasian College of Surgeons.</p> <p>Her fellowships were in microvascular cancer reconstruction at Peter MacCallum Cancer Centre, Melbourne, and reconstructive microsurgery and brachial plexus at St Vincent's Hospital and The Alfred Hospital, Melbourne. She further developed her interest in reconstructive microsurgery at Chang Gung Memorial Hospital, Taiwan. She has been working as a consultant at the Mater Misericordiae University Hospital, Dublin since 2018, where her sub speciality interests are melanoma and advanced skin cancer management, as well as head and neck microvascular reconstruction.</p>	

HONORARY FELLOWSHIP CONFERRING & 45th MILLIN LECTURE

Shirley Potter has a strong research portfolio having published widely, while also supervising PhD and Masters students under the Wellcome-HRB Irish Clinical and Academic Training (ICAT) program. She runs a Melanoma research group at the Conway Institute and Charles Institute, UCD

She was recently awarded the Irish Cancer Society Clinician Research Leadership Award. Her main research interests are Malignant Melanoma, Advanced Skin Cancer, Head and Neck Cancer, Reconstructive Microsurgery, Surgical Education and Simulation, and PPI research. Dr Potter is the Irish Principal Investigator for the MelmarT Melanoma Margins Trial with Cancer Trials Ireland. She has also developed a Melanoma Patient Research Group, with the aim of keeping patients involved in melanoma research. Dr Potter has also completed a Masters in Medical Education and has a reputation as a surgical educator, with a special interest in microsurgery simulation. She is an active member of the faculty of trainers for core and higher surgical training schemes at RCSI, and was recently voted trainer of the year by her specialty trainees. Dr Potter is also keenly involved in undergraduate medical education at UCD, has developed an undergraduate curriculum in Plastic and Reconstructive Surgery, as well as an online learning platform for medical students at UCD.

In her spare time, Dr Potter is an ultra-marathon runner, and enjoys open water swimming and off-piste skiing. She is also mum to a very active toddler.

OUR HONORARY FELLOWS

Dr Vivian McAlister

Professor Emeritus, University of Western Ontario
and Adjunct
Professor, Department of History, University of Western Ontario

Vivian McAlister was born in Dublin and educated in Castleknock College and Trinity College. He emigrated to Canada in 1981. Currently Dr. McAlister is professor emeritus at Western University and an adjunct professor in its department of history. He is president of the James IV Association of Surgeons (Canadian section). Formerly, he was a general surgeon with expertise in transplantation and military medicine. He has been president of the Canadian Society of Transplantation and the Canadian Organ Replacement Registry. Dr McAlister served on the council of the Royal College of Physicians and Surgeons of Canada and was chair of its Region Advisory Committee for Ontario and Nunavut (RAC 3). He was co-editor-in-chief of the Canadian Journal of Surgery from 2013 until 2019. He was a regular force member of the Royal Canadian Medical Service, Canadian Armed Forces until 2019 and he has deployed overseas many times. He was the founding director of Western's Office of Military Academic Medicine. Awards received include The Queen Elizabeth Diamond Jubilee medal (2012), the Angus McLachlin chair of surgery (2014); the Canadian Medical Association John McCrae Memorial Medal (2019) and the Canadian Society of Transplantation lifetime achievement award (2019). Dr McAlister was made an officer in the Order of Canada in the 2021 Honours List.

Dr Ajit K. Sachdeva, MD, FACS, FRCSC, FSACME, MAMSE

Director, Division of Education, American College of Surgeons
Adjunct Professor of Surgery, Feinberg School of Medicine, Northwestern University

Dr Sachdeva is the Founding Director of the American College of Surgeons (ACS) Division of Education. He is also Adjunct Professor of Surgery at Northwestern University Feinberg School of Medicine. Dr. Sachdeva previously served as Leon C. Sunstein, Jr., Professor of Medical and Health Sciences Education, Associate Dean for Medical Education, and Professor and Vice Chairman for Educational Affairs, Department of Surgery, at MCP Hahnemann School of Medicine. He also served as Chief of Surgical Services at the Philadelphia Veterans Affairs Medical Center.

Dr Sachdeva is a Founding Member of the ACS Academy of Master Surgeon Educators. He has been the recipient of the Distinguished Educator Award (Lifetime Achievement Award) of the Association for Surgical Education, Margaret Hay Edwards Achievement Medal for Outstanding Contributions to Cancer Education, Theodore McGraw Medal, Lindback Award for Distinguished Teaching, and Blockley-Osler Award for Excellence in Clinical Teaching. He has published more than 100 peer-reviewed papers on surgical and medical education topics. Dr. Sachdeva has served on the Boards of ACCME and ACGME.

Dr Sachdeva has served as President of Association for Surgical Education, American Association for Cancer Education, Alliance for Clinical Education, Council of Medical Specialty Societies, and Society for Academic Continuing Medical Education.

THURSDAY, 2 FEBRUARY 2023

OUR SYMPOSIUM SPEAKERS

Mr Josh Burke

Surgical Trainee, Past President ASiT;
Current Chair RCS RADAR Trainees Group;
Lead author of the Future of Surgery Technology
Enhanced Surgical Training Report

Josh is a RCS England and Bowel Cancer UK PhD Clinical Research Fellow at The University of Leeds and a General Surgery Registrar at Leeds Teaching Hospitals NHS Trust. After graduating from The University of Manchester in 2015 he completed his Academic Foundation training in East London whilst completing an honorary research fellowship at the National Institute of Bowel Research, a postgraduate certificate in medical education and a postgraduate diploma in health research. He chaired the Commission on Future of Surgery: Technology Enhanced Surgical Training, is the current Director of Education for The RCS England Innovation Hub, the Vice Chair of The Academy Trainee Doctors Group and previous ASiT President.

Professor Siobhan Glavey, MB BCH BAO BSc PhD FRCPath FRCPI

Chair and Professor of Pathology RCSI;
Consultant Haematologist, Beaumont Hospital, Dublin

Professor Siobhan Glavey is the academic head of the Department of Pathology at the Royal College of Surgeons in Ireland. She is a haematologist and a physician scientist focused on multiple myeloma and she leads a research group at RCSI focused on precision medicine for this disease. She is the academic lead for the Molecular Pathology Laboratory at RCSI, which is a nationally accredited laboratory for cancer genomics and provides national MRD testing for myeloma patients in Ireland.

She received her medical degree from NUI, Galway and completed her internal medical training at Galway University Hospital and at the Mayo Clinic College of Medicine. Her haematology clinical training took place in Ireland and the USA. She is a Fellow of the Royal College of Pathologists in Ireland and the Royal College of Physicians in Ireland and is a member of EMN, EHA and ASH and the Royal College of Pathologists in London.

Her research focuses on understanding the mechanisms of tumour progression in the bone marrow microenvironment and predicting mechanisms of therapy resistance in multiple myeloma. She is interested in the development of new genomic molecular markers that predict outcomes in multiple myeloma, particularly extramedullary disease relapse. She leads a number of investigator initiated and industry-sponsored clinical and translational research projects in Ireland.

Prof Glavey has co-authored over 100 publications and book chapters and she has received funding support from the American Society of Hematology, Breakthrough Cancer Research and the Leukaemia Research Foundation. She continues to collaborate with a number of leading multiple

THURSDAY, 2 FEBRUARY 2023

**Dr Terri McVeigh**

Consultant Clinical Geneticist, Royal Marsden NHS Foundation Trust and Honorary Associate Faculty, Institute of Cancer Research

Dr McVeigh trained in Clinical Genetics in Ireland, funded by the HRB National Academic SpR programme. She undertook fellowships in Yale University (USA) QIMR Berghofer (Brisbane, Australia), and in the Royal Marsden in London before taking a permanent post as a Consultant Clinical Geneticist there in 2018. She has a specialist interest in Medical Education, and works as member of faculty on MSc Health Professions Education (Iheed/ Warwick University) and PGDip Health Sciences, Clinical Education (NUI Galway). She designed, developed and is Clinical Lead of the Postgraduate Certificate in Cancer Genetics & Genomics, and Subject Matter Expert for the Postgraduate Certificate in Digital Health & Telemedicine, both with the RCPI. She is a tutor on MSc Genomic Medicine (Imperial College London), is a member of steering committee of the Association of Cancer Physicians/Royal College of Radiologists Genomics Education Resource, and co-chairs the Oncogenomics & Malignant Haematology working groups of the Health Education England GeNotes resource. Dr McVeigh is a Council Member and Communications Representative of the Cancer Genetics Group (CGG) of the British Society of Genomic Medicine (BSGM); and is the CGG representative on the BSGM Education & Training working group. She is team leader of Cancer Genetics Education & Quality Improvement team in the Institute of Cancer Research.

**Dr Ozanan Meireles, MD**

Bariatric and Gastrointestinal Surgeon
Assistant Professor of Surgery Harvard Medical School
Director, Surgical Artificial Intelligence and Innovation Laboratory

Dr. Ozanan Meireles is an Assistant Professor of Surgery at Harvard Medical School and a Bariatric, Foregut, and Advanced Endoluminal Surgeon at the Massachusetts General Hospital in Boston. Dr. Meireles has been practicing surgery at MGH for more than 10 years, where he has been responsible for the introduction of new technologies and techniques. Dr. Meireles graduated from the Sao Paulo State University School of Medicine in Brazil. He completed his surgical training at Michigan State University and his clinical fellowship in Minimally Invasive and Bariatric Surgery at the University of California San Diego. He spent his research fellowship at the Johns Hopkins Hospital investigating augmented reality in surgery, robotic telemanipulation, and Natural Orifices Trans Endoluminal Surgery (NOTES). He is the director of the Surgical Artificial Intelligence and Innovation Laboratory (SAIIL) at the Massachusetts General Hospital. At SAIIL, his research focus is on utilizing computer vision to investigate the intraoperative phase of care through real-time, automated surgical analysis and provide surgeons with additional data, with the goals of democratization of surgical knowledge, lowering costs, improving patient outcomes, and reduction of morbidity and mortality. He serves as the Chairman of the Society of American Gastrointestinal and Endoscopic Surgeons (SAGES) Artificial Intelligence Task Force, where he has been leading several projects to research and build the foundation for the scalability and sustainability of Surgical AI.

THURSDAY, 2 FEBRUARY 2023

**Professor Vassilios Papalois MD, PhD, FICS, FEBS, FRCS**

Vassilios Papalois is Professor of Transplantation Surgery and Consultant Transplant and General Surgeon at the Hammersmith Hospital, Imperial College, London, UK. He leads transplant programmes of excellence focusing on high risk and extended criteria kidney and pancreas transplantation.

He has been active in surgical research for more than 30 years and has published more than 200 papers in peer review journals (receiving more than 500 citations per year internationally), 22 book chapters and 8 books. His research focuses on pre-transplant assessment and reconditioning of marginal kidney and pancreas grafts, use of stem cells for treatment of chronically scarred allografts, surgical education, clinical ethics, medico-legal challenges, and health policy.

He is the President of the European Union of Medical Specialists (UEMS) representing 41 countries and 1.6 million medical specialists, the Past-President of the European Society of Organ Transplantation (ESOT), Past-Member of the Executive Board of the Association of Surgeons of Great Britain and Ireland (ASGBI), Member of Council of the European Society of Surgery (ESS), Editor in Chief of the World Journal of Transplantation (WJT), NIHR NW London Subspecialty Lead for Transplantation, Advisor to the General Medical Council (GMC), Advisor to the National Institute of Health and Care Excellence (NICE), Head of student conduct for Imperial College, and member of the editorial board of 11 international peer review journals. Professor Papalois is also Chair of the Ethics Committee of the Avon and Somerset Constabulary and Vice-Chair of the Research Ethics Committee of the Ministry of Defence. Professor Papalois has been a keynote speaker in more than 150 national and international congresses.

Professor Papalois has been awarded a Silver National Award for Clinical Excellence by the UK Department of Health, a Senior Clinical Investigator Award by the European Society of Organ Transplantation, and a Teaching Excellence Award by Imperial College. He has also been awarded an Honorary Doctorate from the University of Thessaloniki and he is an Honorary Member of the Spanish Association of Surgeons and the Spanish Transplantation Society, the only UK surgeon to have both accolades. Professor Papalois is the Deputy President of the Onassis Cardiothoracic Centre and co-chairs the Committee for the National Transplant Plan and Centre in Greece led by the Onassis Foundation.

THURSDAY, 2 FEBRUARY 2023

Professor Paul Ridgway MD, BCh, BAO, MMedSc, FEBS, FRCSI

Associate Professor, Department of Surgery, Trinity College Dublin at Tallaght Hospital; National Clinical Advisor in General Surgery to the National Clinical Programme; President & Chair of Examinations, UEMS Division of General Surgery; RCSI Council Member

Paul Ridgway is a Consultant in General, UGI and HPB Surgery and an Associate Professor in Trinity College Dublin. His research interest are Surgical performance and Education. He is fellowship trained in Surgical Oncology with previous postings in St Mary's Hospital/ Imperial College London (UK) and in the University Health Network Surgical Oncology and Thoracic services in Toronto and the University of Western Ontario in London, Canada.

He has well over 120 peer reviewed publications, invited lectures and book chapters. He has supervised PhD and Masters students in the areas of surgical education, oncology and technology. He was part of the early working group and founding executive of NASCE. He is the National Clinical Advisor for General Surgery to the NCPS in Ireland. He is the President and Chair of Examinations of the Division of General Surgery (UEMS) and an elected Member of Council of RCSI.

THURSDAY, 2 FEBRUARY 2023

**Dr John J. Sheehan**

Radiologist | Clinical Director & Advisor | Healthcare Technologist | AI & AR | Blackrock Health | Mobile Medical Diagnostics | xWave Technologies | Ireland Digital Health Leadership Steering Group

John is a graduate of RCSI and qualified as a Radiologist in 2005. He did fellowships in MRI (Body, Neuro & MSK) & Cardiovascular Imaging in Northwestern Memorial Hospital, Chicago, 2006-2009 and was appointed Chief of Cardiovascular Imaging, NorthShore University Health System, Chicago in 2009.

John currently practices as a Consultant Radiologist in Blackrock Health (Hermitage & Blackrock Clinic's) and Mobile Medical Diagnostics. His practice includes Diagnostic & Interventional Radiology with cross sectional interests in cardiovascular, hepato-biliary, prostate, MSK and Colonography.

John is the Clinical Director of Radiology in the Hermitage Clinic, Clinical Director of Mobile Medical Diagnostics and Clinical Advisor to xWave Technologies (xRefer)

He has a passionate accumulated knowledge & experience in existing & emerging technologies in radiology & wider healthcare, including cloud, AI and Augmented Reality, to help innovate & influence technology policy, by integrating clinical, digital, healthcare providers & industry realms.

John is a member and Clinical Vice Chair of the Ireland Digital Health Leadership Steering Group (IDHLSG) led by Prof. Martin Curley, comprised of leading digital health entrepreneurs, corporate leaders, clinicians, patients, academics & others. The charter of the group is to agree, align and accelerate Ireland's Digital Health Strategy & Action plan – Stay Left, Shift Left, 10x, enabling Ireland

to leapfrog in digital health & overall health maturity. Core of the strategy is that digital technology provides an opportunity to provide 10x innovations or improvements, doing healthcare 10x better, faster, cheaper & increased capacity. The ultimate aim is to make Ireland a European leader and Global leader in Healthcare.

FRIDAY, 3 FEBRUARY 2023

OUR HONORARY FELLOWS

Dr Maria B. Majella Doyle, M.D., M.B.A., F.A.C.S.

Maria B. Majella Doyle, M.D., M.B.A., F.A.C.S., is a Professor of Surgery, Mid-America Transplant and Department of Surgery Distinguished Endowed Chair in Abdominal Transplant, Director of the HPB Fellowship Program, and Director of Liver Transplant in the Division of General Surgery, Section of Abdominal Transplantation, and Executive Vice-Chair of the Department of Surgery at Washington University in St. Louis, as well as the Director of the Pediatric Transplant Program at St. Louis Children's Hospital and the Director of Faculty Development. Dr. Maria Doyle received her Bachelor of Arts Degree at Trinity College in Dublin Ireland before completion of medical school at the Royal College of Surgeons in Ireland. She then completed her surgical residency in the Irish General Surgical Training Program at the Royal College of Surgeons before completing a Research Fellowship in the Department of Academic Surgery at Cork University in Cork, Ireland. She completed a Clinical Fellowship in Abdominal Organ Transplant and HPB Surgery at Washington University School of Medicine in St. Louis, Missouri and was subsequently recruited as a member of the Abdominal Organ Transplant and Hepatobiliary Surgery team. Her interests at the university are focused on adult and pediatric hepatobiliary and pancreatic surgery as well as liver and kidney transplant. She focuses her clinical research interests on clinical outcomes, hepatocellular carcinoma, liver transplantation, and donor management. Dr. Doyle has played an active role in US national transplant surgery and HPB organizations. She is the current president of the Americas Hepatopancreaticobiliary Association (AHPBA) and is a councilor of the American Society of Transplant Surgery (ASTS). She has been a mentor for many surgical trainees is the current Chair of Accreditation for the Fellowship Council governing HPB fellowship training in the US. She is the author of over 120 peer reviewed publications and book chapters.

Professor Richard Irving MD FRCS

Consultant in Otolaryngology, Neurotology and Skull Base Surgery, University Hospital Birmingham NHS Trust, Queen Elizabeth Hospital and Birmingham Children's Hospital, UK

Richard Irving is a Consultant in Otolaryngology, Neurotology and Skull Base Surgery and Honorary Professor in Bioengineering. He works at the Queen Elizabeth Hospital and the Children's Hospital in Birmingham UK. He qualified from London University and trained in London, Cambridge and San Francisco. Richard has a broad clinical practice including implantation otology, chronic ear disease, facial nerve, vertigo, lateral skull base and vestibular schwannoma. He is active in research with current ongoing projects covering skull base tumour biology, inner ear regeneration, auditory implant technology and vestibular diagnosis. He has over 140 publications and is heavily involved in postgraduate education and training. Richard is past President of the British Society of Otolaryngology, past President of the RSM Section of Otolaryngology and current President of the British Skull Base Society.

FRIDAY, 3 FEBRUARY 2023

Dr John G. Meara, MD, DMD, MBA, FACS, FRACS, FRCS Glasg (Hon)

Plastic Surgeon-in-Chief, Boston Children's Hospital;
Professor of Surgery, Harvard Medical School;
Honorary Professorial Fellow, University of Melbourne

John G. Meara, MD, DMD, MBA is the Founder and Director Emeritus of the Program in Global Surgery and Social Change, Professor of Surgery in the Department of Surgery, and the Boston Children's Hospital Professor of Pediatric Plastic Surgery at Harvard Medical School. Dr. Meara serves as the Plastic Surgeon-in-Chief of the Department of Plastic & Oral Surgery at Boston Children's Hospital. He was Co-Chair for the Lancet Commission on Global Surgery and was a commissioner on the Lancet Global Health Commission on High Quality Health Systems in the SDG Era, the Lancet Oncology Commission and the Lancet Commission on Diagnostics.

FRIDAY, 3 FEBRUARY 2023

OUR SYMPOSIUM SPEAKERS

Professor Alex Bottle

Professor of Medical Statistics at Imperial College London

He is Professor of Medical Statistics at Imperial College London. Following involvement in two UK public inquiries, including secondment to the inquiry into the crimes of the GP Harold Shipman, he devised and set up a national hospital outcome monitoring system with his Unit's commercial partners Dr Foster. This system soon detected the high mortality at Mid Staffordshire and helped trigger another public inquiry and a wider review of in-hospital deaths, and it continues to this day helping hospitals improve their outcomes. His research focuses on the use of primary care and hospital data to investigate variations in the quality of care for long-term conditions such as heart failure and arthritis and has been cited in clinical guidelines and the 2019 NHS Long-term Plan. He has worked with clinicians from nearly 20 specialties, including orthopaedics, upper and lower GI surgery, and urology. He is an editor at Thorax and BMJ Quality and Safety. In addition to his teaching responsibilities, since 2016 he has run a popular training course for the public sector in statistical thinking and better use of data, with clients including teams at the UK's Medicines and Healthcare products Regulatory Agency, the Welsh Assembly and many local authorities.

Mr James Cashman

Consultant Orthopaedic Surgeon
Bon Secours Hospital Dublin and
Cappagh National Orthopaedic Hospital

Mr. James Cashman is a consultant orthopaedic surgeon at Cappagh National Orthopaedic Hospital. He graduated from UCC in 2001. Having undertaken his postgraduate training in trauma and orthopaedics under the auspices of the Irish National Orthopaedic Training Programme, he completed a hip and knee reconstructive fellowship at the Rothman Institute, Philadelphia. He then completed a fellowship in the young adult hip at the Royal National Orthopaedic Hospital, Stanmore, London. His interests include primary and revision hip and knee arthroplasty. He also has a further sub-specialty interest in the young adult hip, performing hip arthroscopy, pelvic and femoral osteotomies. He has published numerous peer reviewed articles in basic science and clinical orthopaedics, as well as texts on hip and knee arthroplasty.

Professor Conor Deasy

Professor of Emergency Medicine, University College Cork;
Clinical Director, Unscheduled Care working at Cork University Hospital; President of the Irish Association for Emergency Medicine; Clinical Lead for the South Trauma Network; Clinical Lead for NOCA Major Trauma Audit in Ireland

Conor is the Professor of Emergency Medicine, University College Cork and Clinical Director, Unscheduled Care working at Cork University Hospital (CUH). He has recently been elected President of the Irish Association for Emergency Medicine. He also holds the following roles:

- Clinical Lead for the South Trauma Network
- Clinical Lead for National Office of Clinical Audit's (NOCA) Major Trauma Audit in Ireland
- Examiner for the Royal College of Emergency Medicine
- Associate Adjunct Professor at the School of Primary Care, Monash University, Australia.
- Deputy Medical Director of the National Ambulance Service from 2014 - 2020

Conor completed his higher specialist training program in Emergency Medicine in Ireland before moving to Australia where he worked as a Consultant in Emergency Medicine at the Alfred Emergency and Trauma Centre, Melbourne. While there he completed a PhD at the Department of Epidemiology and Preventive Medicine, Monash University in collaboration with Ambulance Victoria. To date Conor has published across the domains of patient safety, quality of care, systems of care, procedural sedation, trauma care as well as out of hospital cardiac arrest.

Qualifications MB, BAO, BCH, BMedSc, DCH, DIMC, Dip Tox, MRCSA&E Ed, FRCER, FACER, PhD.

FRIDAY, 3 FEBRUARY 2023

Prof Fidelma L Flanagan

Associate Clinical Professor UCD School of Medicine
Clinical Director, BreastCheck Eccles Unit &
Consultant Radiologist - Mater Misericordiae University
Hospital
36 Eccles St., Dublin 7
M.D. F.F.R. (R.C.S.I), F.R.C.R.

My name is Prof Fidelma Flanagan. I am Clinical Director of BreastCheck, Eccles Screening Unit and Consultant Radiologist Mater Misericordiae University Hospital, Dublin. I am Associate Clinical Professor UCD School of Medicine and National Advisor to BreastCheck

Qualifications

MB BCH BAO/ UCD 1987

MRCPI 1988

MD UCD 1998

Radiology Fellowship 1994 FFR/ RCSI and Mater Hospital
Specialist Fellowships

Breast/Irish Pilot Screening Programme, Mater Hospital
RCSI 1994 and 1998

Breast and PET/Nuclear Medicine, Mallinkrodt Institute of
Radiology, WU, St Louis 1995 and 1996

Breast Radiologist

(On-Staff) Mallinkrodt Institute of Radiology, WU, St Louis
1996-7

Awarded Associate Professorship UCD 2016

Clinical Director/Radiologist/UCD lecturer - Current

Breast Cancer Screening Programme and Mater

Misericordiae Hospital, Eccles Unit since 1999.

Responsible for the delivery of the National Breast
Screening Programme to one quarter of the eligible Irish
Population

Actively involved in teaching at under and post graduate
levels - UCD

Clinical Advisor to BreastCheck 2021 - Current

Inaugural Chair of the Quality Committee BreastCheck
2000-20005

Extensive publications on Breast and PET imaging,
including editorials and book chapters

Presented at numerous National and International
conferences

Recipient of:

RSNA Research in Education Fund Award

Society of Nuclear Medicine Fellowship Award

USA National Career Development Award on the role of
PET in Breast Cancer Imaging

FRIDAY, 3 FEBRUARY 2023

Ms Emmeline Nugent MB BAO MCh MD MSc FRCS

Emmeline Nugent graduated from Trinity College Dublin, Ireland with an honour's degree in Medicine in 2006. She completed her postgraduate general surgical training in Ireland followed by a Fellowship in Minimally Invasive Colorectal Surgery in the Cleveland Clinic, Ohio in 2018. Her fellowship was facilitated by a Richard Steevens Scholarship. She completed a research MD with RCSI. Her research interests are in the field of Colorectal Cancer Surgery, Inflammatory Bowel Disease and Surgical Training and Education and she has numerous peer reviewed publications, book chapters and presentations to her name. On returning to Ireland in 2019, she was awarded a 30% scholarship to complete a Masters in Leadership and Innovation in Healthcare with RCSI in 2021. She is currently working as a consultant in Colorectal and General Surgery at Galway University Hospital, Ireland.

FRIDAY, 3 FEBRUARY 2023

**Dr Jarushka Naidoo, MB BCH MHS**

RCSI Professor of Medical Oncology and Consultant Medical Oncologist
 Beaumont RCSI Cancer Centre, Dublin, Ireland
 Adjunct Professor of Oncology, Johns Hopkins University

Biography

Prof. Naidoo is a consultant medical oncologist at Beaumont Hospital Dublin and a Professor in RCSI. Prior to joining RCSI in late 2020, Prof Naidoo was an Assistant Professor of Medical Oncology and Lung Cancer Specialist in Sidney Kimmel Comprehensive Cancer Center at Johns Hopkins University, and is now an Adjunct Assistant Professor of Oncology at Johns Hopkins University. She currently serves as national lung cancer lead for Cancer Trials Ireland.

Prof. Naidoo is an internationally-recognized leader in the fields of immunotherapy for lung cancer, melanoma, and immune-related toxicity. She serves on several international guideline panels including ASCO (American Society of Clinical Oncology) and SITC (Society of Immunotherapy for Cancer), and is an experienced clinical trialist- having developed and completed several investigator-initiated, industry-funded and cooperative group clinical trials. She has received a number of grants including a young investigator award from the International Association for the Study of Lung Cancer (IASLC), Lung Cancer Foundation of America (LCFA), and a career development award from the National Institutes of Health (NIH) KL2-program. She has a strong commitment to education and training in Oncology, and has mentored several early career physicians, fellows and medical students, resulting in high-level publications and young investigator award winners.

Dr. Naidoo obtained her medical degree from Trinity College Dublin, completed her internal medicine and medical oncology training in Ireland, followed by an advanced medical oncology Fellowship at Memorial Sloan Kettering Cancer Center, New York, before joining the faculty at Johns Hopkins, and then returning to Ireland.

FRIDAY, 3 FEBRUARY 2023

Ms Margaret O'Donnell FRCSI FRCS(Plast)

Plastic & Reconstructive Surgeon Blackrock Clinic & St Vincents Private Hospital Dublin
Group Clinical Director, Blackrock Health

Margaret is a Consultant Plastic & Reconstructive Surgeon for over 25 years, now working part-time in clinical practice, as she has recently been appointed as Group Clinical Director to the Blackrock Health Group of hospitals; Blackrock, Galway and Hermitage Clinics. A 1984 graduate of UCD, she trained in Ireland, UK and Australia, before being appointed Consultant, jointly to St. Vincent's University Hospital and St. James's Hospital, a post she held for 10 years (1998-2008). During this time, she was the Lead Consultant in the National Burns Unit in St. James's Hospital. She has a keen interest in Patient Safety and in 2008, became a Special Lecturer in the RCSI in Human Factors & Patient Safety. She is on the Education Faculty of Medical Protection (MPS) since 2017, delivering workshops and webinars in both UK and Ireland. She was President of the Irish Association of Plastic Surgeons (IAPS) 2014-2016, and was appointed for a second term to the Advisory Committee for Medical Devices of Health Products Regulatory Authority (HPRA). She has been the Ireland Representative for ISAPS (International Association of Aesthetic Plastic Surgeons) and was the Irish National Delegate to ICOPLAST (International Confederation of Plastic Surgery Societies). Since 2018, she has sat on the Council of the Royal College of Surgeons in Ireland (RCSI). She is married with three grown-up children, and was one of a crew of 8 who sailed across the Atlantic last year.

Professor Risteárd Ó Laoide

National Director, National Cancer Control Programme (NCCP)

Professor Risteárd Ó Laoide is Director of the National Cancer Control Programme (NCCP). He is a Consultant Radiologist at St. Vincent's University Hospital and Clinical Professor of Radiology at University College Dublin.

Formerly, Risteárd was Medical Director of St. Vincent's Healthcare Group and Clinical Director of Ireland East Hospital Group. He is a medical graduate of Trinity College Dublin, completed his radiology residency at St. Vincent's University Hospital in Dublin and subsequently undertook a Fellowship in Abdominal Imaging and Intervention at the University of California, San Diego. He is a Fellow and Dean Emeritus of the Faculty of Radiologists, Royal College of Surgeons in Ireland. He is also a Fellow of the Royal College of Physicians of Ireland and a Fellow of the Royal College of Radiologists (UK).

FRIDAY, 3 FEBRUARY 2023

Ms Collette Tully

Executive Director, NOCA

Collette Tully was appointed the NOCA Executive Director in June 2016. Prior to this, Collette was the Operations Manager for RCSI on an international programme of work in the Middle East. Collette worked for a number of years as a management consultant with Deloitte Ireland, where she was responsible for change programmes across multiple sectors including banking, health insurance and the public sector. Collette also has significant international experience working with the Department for Education England, BHP Billiton Australia and JP Morgan London. Collette is a qualified accountant with the Chartered Institute of Management Accountancy (CIMA).

MRCs EXAMINATIONS – ROYAL COLLEGE OF SURGEONS IN IRELAND

Developing Surgeons Who Make A Difference Worldwide

Overview

The MRCS examination aims to assess trainee surgeons in the breadth of both basic sciences and the principles of surgery. It is an intercollegiate exam, hence, the syllabus, format and content are common to all surgical Royal Colleges in the UK and Ireland. The MRCS examination is fully-recognised by both the Irish Medical Council and the General Medical Council (UK).

Why Choose RCSI?

The Royal College of Surgeons in Ireland is one of Ireland's longest established and most respected academic institutions. For more than two centuries, the College has provided education and training of the highest calibre to students and healthcare professionals from Ireland and more than 78 other countries.

Many domestic and international candidates around the world choose to do the MRCS exams with RCSI due to our commitment in helping candidates in their career in surgery. Taking the MRCS exams with RCSI is much more than the exam itself but the range of supports and resources we offer to our candidates before and after the completion of both Part A and B examinations.

From our brand-new affiliate membership programme, academic programmes, exam specific supports and post-membership and fellowship of RCSI, candidates are supported throughout their journey of surgery here at RCSI.

Resources and Supports

- › 20% Discount on Pastest MRCS Part A and B resources
- › RCSI MRCS Part B (OSCE) Preparation course
- › RCSI Affiliate Membership
- › Intercollegiate Surgical Skills course
- › RCSI Online resources

Applications & queries

For any queries about upcoming MRCS Part A or B examinations with RCSI or enquires about any of our supports, please email mrsexams@rcsi.ie or visit postgradexams.rcsi.ie/public/openexams

BECOME AN MRCS EXAMINER OF THE ROYAL COLLEGE OF SURGEONS IN IRELAND

PLAY YOUR ROLE

The Royal College of Surgeons is currently recruiting for **clinical, basic, and lay examiners** in Ireland, Bahrain, Malaysia, and the United Arab Emirates to examine in upcoming MRCS B OSCE examinations.

Members of the RCSI Court of Examiners are kept informed of developments and international best practice in clinical assessment at the Annual Court of Examiners Meeting and are awarded Professional Competence Scheme (PCS) credits for examining and attending our annual meeting. Members also receive a complimentary member's pack with RCSI Court of Examiners merchandise.

If you're interested in becoming an MRCS examiner with RCSI, please visit rcsi.com/coe, register your interest by scanning the QR Code or email courttofofexaminers@rcsi.ie.
