Queries should be addressed to the Admissions Officer of the HEI applied for not CAO

October 2022. This document is for 2023 entry. The matriculation and English language requirements are the minimum and will be higher for certain courses and in certain institutions. Applicants must also refer to HEI websites for details of specific subject requirements and previous points requirements.

Introduction

1. Background

This document is based on a combination of information available from international qualifications recognition databases, historical data for admissions standards for entry in the past and examination performance statistics where available.

The purpose of this document on Entry Requirements for EU students presenting with qualifications (other than the Irish School Leaving Certificate Examination) is to provide a framework for comparisons of European Union (EU) and European Free Trade Association (EFTA) qualifications for entry to undergraduate Degree Programmes in Irish Universities.

This will facilitate applicants in understanding the factors that determine the minimum entry requirements and the competitive entry requirements that equate with achievements in the school leaving qualifications in their country. However, applicants should be advised that in the case of high demand programmes, e.g., Medicine, Dentistry, Veterinary Medicine, other criteria may be also applied to particular examination qualifications.

Adjustments to the scoring as described in this document may be required where changes occur in educational systems, or in trends in grades awarded, in any of the countries described in the document for future years. Changes for 2022 will only be considered where there is evidence of a major change in the examination system which was not available when the document was prepared.

This document is a policy document based on a draft document prepared to support a pilot scheme that was implemented in 2006 in the NUI Universities and RCSI. It has since been joined by Dublin City University, University of Limerick and Trinity College Dublin and, from 2014, Institutes of Technology Ireland.

This document is the agreed criteria of the participating institutions. If institutions differ from the agreed criteria, this will be noted on the page for that country. It is planned to review and refine the document at the end of each CAO season, with a view to publishing the scheme for the following year's entry.

2. Scope of the Document

This document covers admission to undergraduate courses in the participating Higher Education Institutions (HEIs) only for EU/EFTA/UK applicants¹. At undergraduate level, the HEIs offer courses spanning levels 6, 7, 8 on the National Qualifications Framework (see www.nfq.ie for details)

- Level 8 = Honours Bachelor Degree
- Level 7 = Ordinary Bachelor Degree
- Level 6 = Higher Certificate or Advanced Certificate

¹ Generally, this is determined by fee status. Applicants whose nationality or country of birth is not EU/EFTA/UK or have lived for outside this region, should check their status with the HEI(s) to which they are applying.

Agreed Entry Requirements for EU/EFTA

Unless otherwise specified it refers to examination systems currently in operation. Applicants presenting older examinations or qualifications not listed should contact the Admissions Office of the HEI to which they are applying in advance of making an application. It will not be possible to review the recognition of a qualification following the issue of offers.

Minimum Entry Requirements (Matriculation)

The minimum standard to be eligible for consideration for admission is specified for Level 8 and Level 6/7 in each country section. In all cases, proof of English proficiency is required (see next section). It must be noted that for some HEIs and/or some courses the minimum eligibility may differ both in terms of grades and subject requirements (e.g., for some HEIs Mathematics is required for matriculation). In addition, there are specific subject requirements for most courses and this document should be read in conjunction with the HEIs entry requirement literature.

Only subjects which are normally recognised for purposes of admission to Irish Higher Education Institutions will be considered. In general, vocational qualifications/subjects will not be considered for Level 8 courses.

In general, in terms of Irish Leaving Certificate matriculation for **level 8 degrees** is either

- 2 H5 required i.e. 6 subjects at ordinary level D3 or better including 2 with minimum of C3 at higher level
or
- 3 H5 required i.e. 6 subjects at ordinary level D3 or better including 3 with minimum of C3 at higher level.

For **level 7/6 awards**, matriculation is normally

- 5 subjects at ordinary level D3 or better

Please note entry to undergraduate courses in Ireland, and especially Level 8, **is competitive** and attainment of the minimum eligibility criteria does not guarantee a place. A points scoring system is in operation. It is not possible to forecast how many points will be required for a particular course until the current year's examination results are known (mid-August each year).

Only recognised subjects are considered. In general subjects deemed equivalent to a subject offered in the Irish Leaving Certificate or listed on the [A-level list of recognised subjects](#) are considered. If you are presenting subjects not listed, please contact the Admissions Office of the HEI to which you are applying.

English Language requirements²

Teaching in Irish Higher Education Institutions (HEIs) is normally through the medium of English; therefore, all applicants are required to demonstrate a high level of competence in English Language.

Applicants presenting Irish Leaving Certificate or A-level are expected to meet English language requirements through those examinations (Leaving Certificate: minimum H7/O6, A level minimum GCSE 4/C). Applicants presenting other examinations, whose first language is not English, must provide evidence of equivalent competence in English Language, through their school leaving examination or matriculation examination or by achieving the minimum standard **(there may be higher levels for matriculation and/or particular programmes in individual institutions)** in a recognised English language test, as specified below (note applicants are assessed on the results of a single sitting only):

- **Test of English as a Foreign Language (TOEFL)**
 - iBT: 90 (no less than 21 in writing and at least 19 in every other section) in the Test of English as a Foreign Language (TOEFL)
Note: In 2022 and 2023 we will accept TOEFL Home Edition . It may not be recognised after that depending on the outcome of a review.
- **International English Language Testing System (IELTS) - Academic**
An average score of 6.5 over all components and a minimum of 6.0 in each band.
Note: In 2022 and 2023 we will accept IELTS indicator. It may not be recognised after that depending on the outcome of a review.
- **Duolingo DET**
A score of 120 is required with at least 110 in each subscore.
- **University of Cambridge:**
176+ on Cambridge English scale with no less than 169 in each skill and use of English i.e.
Proficiency Certificate, Grade C or better (CEFR Level C1 or C2)
Advanced Certificate, Grade C or better (CEFR Level C1 or C2)
First Certificate, Grade A (CEFR Level C1)
- **English Test for Academic and Professional Purposes (ETAPP):**
With grade C1 or better (CEFR Level C1 or C2)
- **UK Examining Boards/Bodies**
GCE O Level English Language at Grade C or above
GCSE English Language at Grade C or above
GCSE English Literature at Grade C or above
CSE Grade 1 Pass in English
- **University of Cambridge Local Examinations Syndicate (UCLES)**
with English at grade C or above (incorporating the Oxford Examining Body's English as a Foreign Language (Higher Paper)

² English requirements may vary for HEIs and individual courses – please consult HEI websites for details.

October 2022. This document is for 2023 entry. The matriculation and English language requirements are the minimum and will be higher for certain courses and in certain institutions. Applicants must also refer to HEI websites for details of specific subject requirements and previous points requirements.

- **EU Countries' Matriculation Examination³**

Matriculation Examinations from European Countries where English is presented as a subject and an acceptable level is achieved. Where the examination has been taken more than 2 years previously candidates may be required to take a proficiency test. Where an English proficiency test which is scored on the Common European Framework of Reference (CEFR) is presented as part of a school-leaving qualification, grade must be C1/C2.

- **Pearson English language text (PTE Academic):**

minimum of 63 (with at least 59 for each item in the Communicative Skills section)⁴.

- **Trinity ISE**

Trinity ISE III with at least merit in each skill category

- **QQI FET ESL**

Merit in the module "English as a Second Language" or "Communications" (level 5)

- **Oxford Test of English⁵**

Minimum score of 140 overall with a minimum score of 125 in each skill.

- **Language Cert⁴**

B2 Communicator High Pass with no less than 33 in each skill taken with no more than 3 months between components.

- **Or an equivalent level of English in a recognised examination**

Proficiency tests are used to meet entry requirements but do not count towards points scores. For all proficiency tests the results must normally have issued within two years prior to the start of your course (i.e., for entry in September 2023, only results attained since 1 February 2021 will be accepted).

Note: Where an applicant shows evidence of hearing impairment which meets the requirements for access, the English language requirements can be met without the hearing and speaking components

³ English requirements may vary for HEIs and individual courses – please consult HEI websites for details.

⁴ Pearson English Language is not currently accepted by DCU

⁵ Subject to local approval. Note: while in most cases all components of an EFL test must be taken in a single sitting as the nature of this examination requires two sittings, this will be accepted provided they are within 3 months of each other.

Application process

EU/EFTA/UK applicants must apply through the Central Applications System (CAO). Complete information on the CAO system is available in the CAO Handbook which is on the CAO Website at www.cao.ie. Each application must be accompanied by appropriate documentation as outlined below.

Documentation to be submitted with CAO Application Form

When submitting an application to the CAO it must be supported by the following documentation: (

- Certified true copy of official transcripts of academic results. This is essential. Your application cannot be assessed without the official results.
- In some cases, the final school report is also required (to show the full range of subjects taken). Where required this will be shown on the country page.
- A certified English translation is required in the case of qualifications not issued originally in English or Irish, in addition to the certified A4 photocopies of the documents themselves.
- Unless specified by a HEI we do not require references or personal statements,
- You do not need to include duplicates for each HEI for which you have applied as they are shared electronically.

In the absence of these documents and translations the application may not be processed. Please note results should be sent to CAO. Results sent to an individual institution will be forwarded to CAO and made available to all relevant HEIs.

Documents for examinations already completed should be sent to CAO within 10 days of applying. Applicants who are awaiting current year examination results must post their results to CAO as soon as they become available. Results should arrive with CAO no later than 1 August. We cannot guarantee that results received after that will be processed in time for inclusion in Round 1. Inclusion in later rounds is subject to availability of places.

For applicants who are successful in their application, the HEI will require that the original documentation be presented at registration for verification. Offers of places are provisional until such time as all Registration formalities have been completed within the University.

3. Evaluating Applications

When EU applicants' results are being evaluated it will be based on the results of any one examination taken in a single sitting (insofar as it is possible with the relevant examination system). If applicants present examinations from two different examination systems, these will be evaluated separately, and the better score used.

The first stage of the evaluation process requires an applicant's results to meet the **Minimum Entry Requirements/Matriculation** and specific subject requirements of a programme.

The second stage of the evaluation process involves scoring the applicant's results to enable ranking relative to other EU applicants. All EU applicants will compete on equivalences as outlined in the tables, which follow.

It should be noted that where subjects are being presented to meet course or matriculation requirements, then only those subjects which have an appropriate weighting in the relevant examination and are recognised for matriculation/entry purposes by Higher Education Institutions which are party to this document, will be considered. Where oral and written examinations are presented in the same subject in the same sitting used for scoring, the average of the two will normally be used for eligibility and scoring.

For each European Union country, the recognised examinations, matriculation requirements and the method of calculating the points score (IPS) are now presented in alphabetical order in the pages, which follow.

Applicants presenting examinations from different examination systems, seeking to combine these to meet matriculation and entry requirements should contact the HEI(s) to which they are applying, as this is considered only in exceptional circumstances. This should be done as early as possible so that approval, if granted, can be done before 1 August. NB applicants will not be scored using subjects from different examinations systems.

To ensure that that a consistent approach is taken to evaluating EU qualifications the HEIs may share the work of evaluating these qualifications. This means, for example, one HEI may evaluate applicants presenting EU qualifications from a specific country (e.g., HEI "A" evaluates all French qualifications, HEI "B" evaluates all German qualifications, etc.). This does mean, in limited circumstances, that a representative from a HEI that you have not applied to may have temporary access to details of your personal data provided during this evaluation process.

4. EU applicants presenting non-EU qualifications

It is not possible to include every qualification worldwide in this document. EU/EFTA/UK applicants presenting non-EU qualifications are assessed jointly insofar as possible. Applicants presenting non-EU qualifications should seek advice from the Admissions Office of the HEI(s) to which they are applying regarding eligibility and entry requirements. While an Admissions Office may give an indication of likely points conversion, this will not be final until agreed by all relevant Admissions Officers.

Appendix II gives some broad guidelines to assist applicants.

In some HEIs applicants with non-EU fee status apply direct to the HEI. Please check your fees status with the institutions to which you are applying if in doubt.

5. Applicant's Responsibility

It is the responsibility of the applicant to provide full and accurate information in the application and to notify the University of any changes or corrections made to the original application. Applicants must provide copies of both the official (untranslated) document and a translation where the official document is not issued in English.

The HEI may request verification from the issuing authority of any or all details on documentation presented. If documents are found to have been falsified the awarding body will be notified.

Agreed Entry Requirements for EU/EFTA

In the light of additional information, which was not available at the time of selection, an offer may be amended or, in exceptional circumstances, withdrawn. The University also reserves the right to correct errors where they have been made in the communication of decisions and offers.

The onus is on the applicant to check entry criteria for the programmes for which they are applying. Please note, criteria can change from year to year.

Latest date for submitting documentation

- Documents for qualifications already complete should arrive in CAO within 10 days of submission of the online application
- For 2022 examination results: Results should be forwarded as soon as they issue. To be considered in the competition for places in Round One, these results must arrive in CAO by 1 August, otherwise they will be considered for subsequent rounds, subject to availability of places and at the discretion of the HEI.

It may not be possible to gain entry in the current year if documents and/or results are presented later than the dates stated above.

6. Bonus points for Mathematics

For Irish Leaving Certificate, 25 bonus points are awarded to students attaining a minimum of grade 6 in Higher Level Mathematics (H6). Where there is a clear distinction between levels of mathematics in other examination systems, this bonus applies to those examinations. As it is not possible to attain this bonus in all systems, if a candidate presents either grade H6 or better in Leaving Cert Mathematics or grade E or better in A level Mathematics, 25 bonus points will be added to the score from their school examination, *provided* Mathematics is one of the subjects used to attain that score and that both examinations were taken in the same examination session (e.g. summer 2023).

7. Subjects not available in examination

Where a specific subject requirement is not available in an examination system, applicants may meet the requirement from another recognised examination. They should consult with the relevant Admissions Office to ensure requirements will be met.

Understanding the page for each country

A brief note about education in Ireland

In Ireland, students normally take 7 subjects for their terminal second level examination, known as the Leaving Certificate (LC). For most subjects there are two levels of examination, Higher (H) and Ordinary (O). Each subject is graded from 1 (max) to 8, with 6 as the minimum pass mark. However, a H7 may be accepted as a pass in some cases.

Entry to third level is very competitive. Firstly, applicants must meet the minimum entry requirements (matriculation). For each institution there is an overall minimum requirement, (e.g., 2 H5 and 4 O6 including Mathematics and English). In addition, there may be specific requirements for individual courses. All applicants who meet minimum requirements compete based on their overall points score which is attained from their six best subjects, attained in a single sitting, with 100 being the maximum for each subject. If Higher Level Mathematics is counted among the subjects, 25 bonus points are awarded; the maximum available is 625 points.

Meeting these requirements

On the page for your country, you will see the following headings

What qualifications are accepted?

Check that your examination is listed here. Not all examinations are automatically accepted.

What is the minimum I need?

This explains the minimum entry requirements for the HEIs. Generally, there are different levels for Level 8 and Level 6/7 qualifications. Within level 8, some HEIs require 2H5 and others require 3H5.

Shows the minimum which will be accepted as a pass mark.

What level of English do I need?

How do I meet the specific subject requirements?

This shows you how to convert the specific subject grades you will find on a HEI's website to the requirement for your country. E.g., on the sample below if Mathematics H5 is required you will need to attain an Advanced level grade C.

Single Sitting:

As points for Irish school-leavers are calculated based on a single sitting, EU qualifications are assessed on this basis. If this is not feasible within the structure of the exam, what is acceptable is explained.

Bonus points for mathematics:

Shows how bonus points for Mathematics are awarded (they are not awarded where there is only one level of Mathematics available in the country).

Are any other qualifications accepted for Level 6/7 courses?

Shows any qualifications which are not acceptable for Level 8 courses but may be accepted for level 6/7

Undergraduate Applications Appeals Process

1. Applications presenting EU/EFTA qualifications are assessed on the basis of criteria published by the participating HEIs (in prospectuses and on websites) and in this document.
2. Applicants who feel their application has not been fairly assessed should contact the Admissions Officer of the relevant Higher Education Institution (HEI) in the first instance and if the issue is a clerical error or documentation not previously available, it can be resolved locally.
3. If the matter cannot be resolved locally, an appeal may be lodged on one of the following grounds:
 - a. Incorrect process; specific evidence of irregularity in the applications assessment process
 - b. Specified/stated grounds where the decision was based on misinterpretation of data or information provided as part of the application process
4. Such an appeal will be referred to the Standing Committee of Admissions Officers.
5. In the event that the outcome of the appeal does not satisfy the applicant, a further and final appeal may be made to the Registrar/Senior Lecturer of the relevant HEI. The Registrar/Senior Lecturer will consult with the other HEIs as appropriate.
6. The Admissions Officers will endeavour to reply to appeals as speedily as possible. However, decisions may take 5-7 working days.
7. This appeals process operates in conjunction with any local appeals processes within the HEIs.
8. Please note appeals must be made within 20 days of the Round 1 offer date and must be made by the applicant. We cannot enter into correspondence with third parties.

Country Information

Austria

What qualifications are accepted?

- Reifeprüfung/Matura (from Allgemeinbildendehöhere Schulen or Berufsbildende Höhere Schule)
- Reifezeugnis/Maturezeugnis (from Allgemeinbildendehöhere Schulen)

What is the minimum I need?

The minimum eligibility criteria based on Reifeprüfung/Matura/Reifezeugnis/Maturezeugnis examination follows. Proof of English proficiency is required in all cases. The minimum standard may be higher in individual HEIs and/or for individual courses. There may also be specific subject requirements for courses. Admission to most courses is competitive and for these courses a standard in excess of the minimum is required.

Level	Irish matric type	Austrian requirements
Level 8	2 H5 required	6 distinct recognised subjects which must include 2 subjects at grade 3 and 4 subjects at grade 4 (of which no more than 2 may be from final year of school)
	3 H5 required	6 distinct recognised subjects which must include 3 subjects at grade 3 and 3 subjects at grade 4 (of which no more than 2 may be from final year of school)
Level 7/6		5 distinct recognised subjects at grade 4 (of which no more than 2 may be from final year of school).

What grade counts as a pass for purposes of admission to HEIs?

4 (scale 5-1 where 1 is best)

What level of English do I need?

The minimum level of English required is 3 in the final exam or equivalent competence in English (see page 10). Note: applicants whose school-leaving examinations are more than two years old must present additional proof of English.

How do I meet the specific subject requirements?

To compare the subject requirements in terms of Irish Leaving Certificate as specified on the HEI's website, use the following table:

Table 1: Subject Grade Comparisons:			
LC Higher	Austrian Matura Examination	LC Ordinary	Austrian Matura Examination
H1	1	O1	2
H2	1	O2	3

NB the table above is NOT used points conversion, only for entry requirement equivalence. For points conversion see Table 2.

October 2022. This document is for 2023 entry. The matriculation and English language requirements are the minimum and will be higher for certain courses and in certain institutions. Applicants must also refer to HEI websites for details of specific subject requirements and previous points requirements.

Agreed Entry Requirements for EU/EFTA

Up to 2 subjects from the final year of school may be used to make the 6 subjects required for matriculation. Only examined subjects can meet subject entry requirements higher than H7/O6. Please note while the examinations from BHS are recognised, the vocational subject will not normally be a recognised subject.

How do I work out my points score?

The indicative equivalence will be calculated as follows:

Table 2: Points Conversion Table				
Average over 6 subjects	IPS		Average over 5 subjects	IPS
1	600		1	525
1.5	497		1.5	435
2	431		2	377
2.5	373		2.5	327
3	316		3	276
3.5	258		3.5	226
4	200		4	175

Average = average score based on best distinct recognised subjects from a single sitting of the final Reifeprüfung/Matura/ Reifezeugnis/Maturezeugnis examination, normally recognised by Irish Universities for admissions purposes. In the context of Austrian examinations, the final project/thesis counts as a recognised subject for points purposes but not as a subject for matriculation.

Only examined subjects are used for points calculation.

Single Sitting:

All subjects are examined at the same time and points are calculated based on a single sitting.

Bonus points for mathematics:

Not applicable as Mathematics is undifferentiated

What documents do I need to send?

You must send a copy of your official examinations results and your results from the final year of school. Both documents should be accompanied by a translation. All documents must be sent to CAO and include your CAO application number.

Are any other qualifications accepted for Level 6/7 courses?

The following qualifications may be recognised for admission to Level 6/7 courses in related areas only. They will be scored to a maximum of 390 points:

- Abschlussprüfungszeugnis when studied for more than 3 years
- Diplom

Table 2: Points Conversion Table	
Average	IPS
10	600
9	540

Single Sitting:

For purposes of points calculation A-level grades taken over a single sitting may be combined with AS grades from the same year or 1 year previous.

Bonus points for mathematics:

25 additional points will be awarded for a grade E or better in A2 Mathematics. This will apply to only ONE mathematics subject of the following: Mathematics, Further Mathematics and Pure Mathematics, and only where that subject is used as one of the subjects for scoring purposes. NB Mathematics and Pure Mathematics cannot be counted separately for points purposes.

Notes: Universities and associated colleges

1. A maximum of four different recognised subjects, which are not mutually exclusive, will be counted.
2. If 4 A-levels are presented, the lowest grade is scored at a lower rate.
3. Only A-level grades awarded at the same date can be considered for computation.
4. Applicants are scored on the basis of their best four A-levels, or three A-levels and an AS level in a different subject from the same or preceding year. (Note one A-level grade from the previous year may be substituted for an AS grade but will only be scored as an AS).
5. Grades in the same subject in A2 and AS level cannot be combined.
6. Please note that these points equivalences are indicative only. In the case of high demand programmes such as Medicine and Veterinary Medicine, a numerus clausus may operate.

¹⁴ A separate scoring system operates for Dundalk Institute of Technology, please see website for details.

¹⁵ Extended project (EPQ) is scored as an AS level and an A* is available in this.

¹⁶ Applies to A level only
