CLINICAL EXAMINERS

Calling all (including newly appointed) consultants who are a member or fellow of one of the four Royal Surgical Colleges, in good standing, and also engaged in active clinical/academic practice.

BASIC SCIENCES EXAMINERS

Calling all medical professionals who hold a basic science qualification from equivalent organisations such as the

1. Fellowship of the Royal College of Anaesthetists
2. Fellowship of the Royal College of Pathologists
3. Fellowship of British Association of Clinical Anatomists (BACA)
4. Fellowship of the Anatomical Society (of Gt Britain and Ireland)
5. Fellowship of the Physiological Society

LAY EXAMINERS

Calling all non-medical professionals looking to get involved with assessing non-technical skills within the MRCS Part B and MRCS Part B Prep course (prospective lay examiners should not be qualified in professions allied to medicine or have received previous medical training).

TESTIMONIALS

I feel my biggest reward has been the many friends both in RCSI as well as in our sister Colleges that I have made over the years.

MR EAMON MACKLE

Consultant Surgeon, Craigavon Area Hospital
Senior MRCS Examiner, RCSI

I enjoy being an RCSI examiner and the support I receive from the College in maintaining my competency in this area.

PROFESSOR CAMILLA CARROL

BScAnat, MEdSurgEd, MD, FEBORLHNS(HON),
FRCS(ORLHNS)
Consultant Otolaryngology Head and Neck Surgeon
Royal Victoria Eye and Ear Hospital Dublin, RCSI
Member of Council

I have been privileged to be a post graduate examiner for RCSI for 15 years and am still enjoying it thoroughly. I

was an anatomy demonstrator and Lecturer in Surgery in the past and I believe it is important to give back and support students and the colleges, particularly remembering what it's like to be on the other side of the table.

It is always difficult to make time outside a busy clinical practice but this time allows also for reflection and collegiality and helps to build bonds with other institutions and disciplines. Examining allows for progressive continual medical education, keeps one in tow of current and future developments and continues to sharpen the mind. It also opens opportunities such as question writing and involvement in college activities both home and abroad.

PROFESSOR MAYILONE ARUMUGASAMY MCH FRCSI

Hon Clinical Associate Professor RCSI
Consultant General / Upper GI and Bariatric
Surgeon Eye and Ear Beaumont and Connolly
Hospitals RCSI
